

Government Contracting

Complex Government Regulations

Wessel & Company understands that contracting for the government can be very attractive, however, with that comes many regulations. We are familiar with the various complex regulations. The understanding and adherence to those regulations is crucial in developing a positive, long-term relationship with the federal government.

Navigating the Federal Government

Our firm has an experienced group that is dedicated to guiding clients through the complex federal government contracting space. Our firm offers a number of services designed specifically to meet the needs of federal government contractors.

These Services Include:

- DCAA Audit Support
- Assist in Bid Proposals
- Contract Pricing
- Policies & Procedures
- Business Systems Compliance
- Gap Analysis
- FAR Part 31 Cost Principles
- Cost Accounting Standards (CAS)
- JARI & PTAC Introductions

Experience Matters

Our depth of experience translate into a very real advantage. Our commitment, both personal and professional, assures that we can provide highly qualified, knowledgeable guidance on issues unique to this sector and will help your company have a better experience while dealing with the federal government.

Industry Leaders

Wessel & Co. has a deep niche in the government contracting industry with a concentration of companies in the Department of Defense sector. We provide services specific to the contractors needs and government requirements. Wessel works alongside government contractors both large and small to navigate challenges faced by all government contractors. As CPAs and Advisors, we go beyond the typical support you receive in the complex governmental space.

The Next Step
