

Customized Accounting Solutions

Your Critical Competitive Advantage

Wessel & Company empowers clients through accurate, timely and transparent reporting without the cost of employee benefits, payroll taxes, or turnover. Smart, efficient closing cycles create a foundation for evaluating performance and supporting business decisions. Dedicate yourself to growing your business and let us handle the accounting.

Your Part-Time, Strategic CFO Team

Many successful organizations do not have the resources to maintain an adequate accounting staff. We take complete or partial responsibility for the accounting department and remove the burden off your shoulders. Wessel & Company can work with your staff, manage them, or outsource the department. We transform organizations by leveraging financial information leading to growth and success.

We Are Your Solution

Our part-time accounting and CFO services are designed to help you thrive. Wessel can eliminate the burden, risk and uncertainty of running your own accounting department. You get access to our entire team of professionals who are dedicated to providing the highest level of service possible. When needed, we can work with your auditor and provide accurate information to make their engagement easier.

The Cost Component

The real cost of accounting is the damage from not having accurate financial information. If not done properly, it can create exposure and impact hiring, purchasing, business development and pricing strategies. Identifying short and long-term trends is vital to heading off potential issues.
